

MultiCrimp®

Quick and easy exchange of the crimping dies without any additional tool

The All-Rounder | ONE tool for the most common crimping applications

RENNSTEIG

The Right Tool.

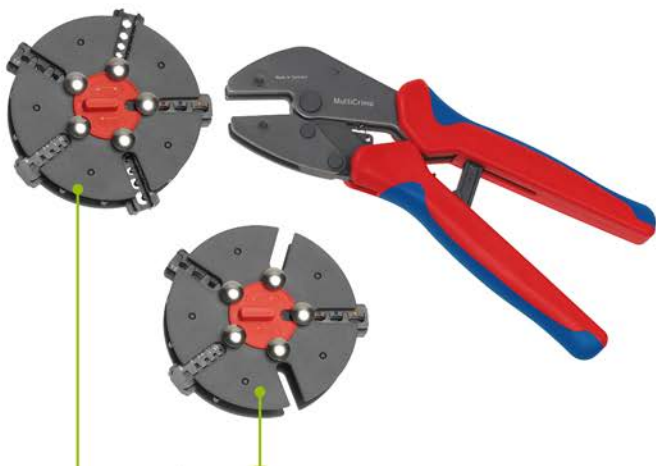

WWW.RENNSTEIG.US

State-of-the-Art production

No more carrying around 5 different tools, when all you really want to do is make a connection. The new MultiCrimp system now offers the compact solution for the professional user. A set of optionally 3 or 5 interchangeable crimping dies in a quick change magazine for the most common applications on the spot.

P/N 629 004 3

Complete crimping pliers with round magazine and 3 interchangeable dies for

- Non-insulated open plug-type connectors
- Insulated terminals and plug connectors
- End sleeves (ferrules)

P/N 629 003 3

Complete crimping pliers with round magazine and 5 interchangeable dies for

- Non-insulated open plug-type connectors
- Insulated terminals and plug connectors
- End sleeves (ferrules)
- Non-insulated terminals and plug connectors
- Non-insulated butt connectors

- Lightweight, high quality, crimping pliers for the mobile professional user
- Very easy and quick change of crimping dies without any additional tool
- Secure and dirt proof storage of the interchangeable crimping dies in a round magazine
- Repetitive, high crimping quality due to precision profiles and integral lock with very fine adjustment (self-releasing mechanism)
- These tools have been set precisely (calibrated) in the factory
- Ergonomically shaped two color dual component handles for one and two hand operation

Secure attachment of the dies in the pliers by reliable locking system

Catch for exchange of crimping dies

Round magazine with belt clip makes the interchangeable dies conveniently located and ready to use.

Round magazine with quick change system

Complete Tool with Die Sets
