

RENNSTEIG *The Right Tool.*

Pipe Cutters

Pipe Cutter for composite and protective pipes

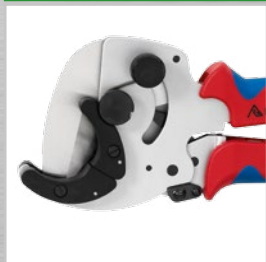

- Precise right-angle cutting of composite and plastic pipes from 1/2" to 1 1/2" diameter
- Clean smooth burr-free cuts
- Safe cutting of corrugated outer protective pipes
- Replaceable blades
- Ergonomically designed two-component handles

P/N	Description	Capacity
502 026 6	Tool with calibration arbour	1/2" - 1 1/2"
502 030 6	Tool without calibration arbour	

Ratchet Pipe Cutter 40

- Burr-free cutting of composite and plastic pipes ranging from 1" to 1 1/2" diameter
- Precise vertical cut by automatic adaptation to pipe support, no pipe deformation
- One-hand operation using ratchet mechanism
- Replaceable blade
- Ergonomically designed two-component

P/N	Description	Capacity
502 040 6	Tool with cutting unit	1" - 1 1/2"

Pipe Cutters

ECO Pipe Cutter for composite plastic pipe

- For precise right-angle cutting composite and plastic pipes from 1/2" to 1" diameter
- Clean, smooth, burr-free cuts
- Blades of special high-strength steel, oil-hardened and tempered
- Ergonomically designed glass-fibre reinforced plastic handles

** Not suitable for cutting cable*

P/N	Description	Capacity
502 037 6	Tool for cutting plastic pipe	1/2" - 1"

Cutters for protective pipe and hose

- For cutting thin-walled plastic pipe (such as plastic protective outer pipe) and plastic and rubber hose, including fabric-reinforced, up to 1" outer diameter
- With opening spring and lock
- Tool body glass-fibre reinforced
- Blade of special tool, oil-hardened, replaceable

** Not suitable for cutting cable*

P/N	Description	Capacity
502 038 6	Tool for cutting plastic pipe and hose (V-Blade)	up to 1"
